Research Interest and Approach

My research focuses on computer-supported collaborative work (CSCW), science and technologies studies (STS), and critical human-computer interaction (HCI), aiming to design systems for effective collaboration and coordination. More specifically, my work investigates how teams work together in various organizational settings ranging from time-bounded events or hackathons, collocated and/or distributed, scientific, education, innovation, open source, and commercial, and how technology supports them, and design interventions, and devise new strategies for future coordinated work.

I use empirical, mixed-methods, case study and experimental research approaches, employing ethnography (interviews and observations), survey, experiments, and archival analysis (collection and analysis of logs and trace data with Python, R, and Dedoose).

Education

2017–2020 Carnegie Mellon University, Pittsburgh, PA, USA.

Postdoctoral Research Fellow

Research: Large scale collaboration and coordination in time-bounded events (hackathons, datathons, etc.) for science, innovation, learning, and community building, and collaborative writing on GitHub.com.

Advisor: James D. Herbsleb, Professor, School of Computer Science and Head, Software and Societal Systems Department (formerly Institute for Software Research), Carnegie Mellon University, USA.

2010–2016 Nanyang Technological University, Singapore.

Ph.D. (Information Science)

Dissertation: Investigating user-centered human computation games: the roles of perceived enjoyment and its antecedents ([doi](#) | [url](#))

Advisors: Dion Hoe-Lian Goh, Professor and Associate Chair (Graduate and Continuing Education), and Chei Sian Lee, Associate Professor and Associate Chair (Faculty), Wee Kim Wee School of Communication and Information, Nanyang Technological University, Singapore.

2008–2009 Nanyang Technological University, Singapore.

M.Sc. (Information Systems)

2001–2005 University of Computer Studies, Yangon, Myanmar.

B.C.Sc (Hons) (Equivalent to B.Sc (Hons) in Computer Science)

Employment Experience

2017–2020 Software and Societal Systems Department, School of Computer Science, Carnegie Mellon University, Pittsburgh, PA, USA.

Postdoctoral Research Fellow

Research: Large scale collaboration and coordination in time-bounded events (hackathons, datathons, etc.) for science, innovation, learning, and community building, and collaborative writing on GitHub.com.

Advisor: James D. Herbsleb, Professor, School of Computer Science and Head, Software and Societal Systems Department, Carnegie Mellon University, USA.

2015–2016 Wee Kim Wee School of Communication and Information, Nanyang Technological University, Singapore.

Research Associate and Adjunct Instructor (2015–2016)

Research: Investigate the motivations, uses, and perceptions differences between game and non-game applications for music tagging preloaded on mobile devices and situated public displays

Advisor: Dion Hoe-Lian Goh, Professor and Associate Chair (Graduate and Continuing Education), Wee Kim Wee School of Communication and Information, Nanyang Technological University, Singapore.

2009–2010 NCS Pte Ltd (formerly National Computer Systems), Singapore.

Applications Consultant

Project: Maintenance and enhancement of a web-based outpatient administrative system (OAS) developed with Microsoft .NET Framework and SQL server and deployed in a network of hospitals, speciality centers and polyclinics managed by Singapore Health Services (SingHealth) under Ministry of Health Singapore. Main responsibilities include monitoring of the daily transactions and batch processing of OAS's accounting module, liaising with the hospital's finance department, administration of change requests, features development, system migration, and on-site support.

2005–2007 University of Computer Studies, Yangon, Myanmar.

Trainee tutor
